Bug ID	Title	Steps to Reproduce	Expected Result	Actual Result	Environment	Screenshot/Video	Severity	Priority
Bug_001	Navbar reloads main page before navigating to selected option	1. Open the website. 2. In the top navigation bar, click on "Astra." 3. From the dropdown menu (submenu), click on any option (e.g., MegaMenu, Commerce). 4. Observe the screen behavior.	1. The selected dropdown menu item (e.g., MegaMenu or Commerce) should directly load its corresponding page. 2. The navbar should remain visible without refreshing/disappearing.	1. The website briefly reloads the main page or the navbar disappears. 2. Only then does the chosen dropdown page load. 3. This creates a flickering effect that interrupts navigation. 4. And it happens for all the dropdown menus.	Browser: Chrome OS: Windows 10 Device: Desktop	Screenshot of Bug Report	Major	High
Bug_002	Price page loads slower than normal	1. Open the website. 2. Click on Price in the navbar. 3. Observe the loading time.	The Price page should load quickly and smoothly.	The Price page takes noticeably longer than normal to load.	Browser: Chrome OS: Windows 10 Device: Desktop	Screenshot of Bug Report	Major	Medium
Bug_003	Template search input field does not accept spaces after characters	1. Open the website. 2. Go to the template search input field. 3. Type characters followed by a space. 4. Observe the behavior.	The input field should allow spaces after characters.	The search field ignores spaces, preventing correct input.	Browser: Chrome OS: Windows 10 Device: Desktop	Screenshot of Bug Report	Critical	High
Bug_004	Search suggestions stay after search and also remain when user clicks the search button after typing manually	1. Open the website. 2. Type a word in the template search box (e.g., Budget Hotel). 3. Press Enter without clicking on the suggestion. 4. Check what happens.	Suggestions should only show while typing and disappear after pressing Enter.	Suggestions stay even after search	Browser: Chrome OS: Windows 10 Device: Desktop	Screenshot of Bug Report	Critical	High
Bug_005	Filter not working correctly: Selecting "Spectra" still shows templates from other builders	1. Open the website. 2. Go to the Template filter section. 3. Select Page Builder → Spectra. 4. Check the displayed templates.	Only templates made with Spectra should be shown.	Templates from other builders (e.g., Elementor) are also displayed.	Browser: Chrome OS: Windows 10 Device: Desktop	Screenshot of Bug Report	Critical	High

Bug_006	Pricing page: "100% Risk-Free Money Back Guarantee!" content not visible	1. Open the website. 2. Click Pricing in the navbar. 3. Scroll to the "100% Risk-Free Money Back Guarantee!" section.	The full guarantee article (heading and body text) should be fully visible without being cut off.	The section shows only partly; the article text is hidden/truncated/overlapped and does not display fully.	Browser: Chrome OS: Windows 10(Desktop), IOS, Android Device: Desktop, Mobile	[Screenshot of Bug Report](#)	Major	High
Bug_007	Top banner "Get Access to 300+ Premium Templates" → "Learn More" opens modal with no video; Also mobile has no Close (X) icon	1) On the homepage, click the top banner Get Access…. 2) On the next page, click the Learn More play icon. 3) Compare desktop vs mobile behavior..	A video modal should open and play, with a visible Close (X) on all devices.	1. Desktop (Chrome/Windows): Modal opens, Close (X) is visible, but the video does not load (blank overlay). 2. Mobile (Android/IOS): Modal opens, no Close (X) is shown and no video appears; screen is effectively stuck.	Desktop: Chrome, Windows 10 Mobile: IOS, Android	[Screenshot of Bug Report](#)	Critical	High
Bug_008	Many templates primary CTA buttons don't work (As example template: SaaS Landing and others)	1) Open an affected template (e.g., SaaS Landing). 2) In the hero section, click the main CTA button (e.g., Start Generating Leads Today). 3) Repeat on a few other templates.	The CTA should navigate to the next step (signup/pricing) or open a form/modal.	Nothing happens on click—no navigation or action. This behavior is seen across many templates, not only SaaS Landing.	Desktop: Chrome on Windows 10, Mobile	[Screenshot of Bug Report](#)	Critical	High
Bug_009	Purple top banner (Business Toolkit / "Maximum Savings…") shows on desktop but not on mobile	1) Open the homepage. 2) Scroll down. 3) Look at the purple top banner with the CTA button. 4) Click the button. 5) Repeat the same on a mobile phone.	The purple banner and its CTA should appear and work on both desktop and mobile.	Desktop: Banner and CTA are visible. Mobile: Banner is missing/not shown, so the CTA can't be tapped	Desktop: Chrome, Windows 10. Mobile: Ios, Android	[Screenshot of Bug Report](#)	Major	High
Bug__010	Top banner offer ("Get Access to 300+ Premium Templates…") cannot be brought back after closing	1) Open the homepage and see the yellow top banner (screenshot). 2) Click the X to close it (or ignore it). 3) Later, try to see the same offer again by reloading	The same top-banner offer should be available again (new visit or via a direct link).	The banner never shows again. Even if the user opens the same link from another site, a different/regular offer appears instead of this one	Desktop: Chrome on Windows 10	[Screenshot of Bug Report](#)	Major	Low

		the page, visiting the site again, or pasting the same link from by copying the link in another browser.						
Bug_011	Pricing page offer like : "Included / Priceless / Free" badges show info on desktop hover but not on mobile tap	1) Open the Pricing page. 2) In Essential Toolkit and Business Toolkit sections, find the badges: Included, Priceless, Free (see screenshot). 3) Desktop: hover the mouse over a badge. 4) Mobile: tap the same badge.	The badge should show a short explanation both on desktop and mobile (hover on desktop, tap on mobile).	Desktop: An explanation/tooltip appears on hover. Mobile: Tapping the badge shows nothing; users can't see what the offer includes.	Desktop: Chrome on Windows 10. Mobile:Android ,iOS).	Screenshot of Bug Report	Major	Medium
